-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, drawn to an e-business complex comprising accessible e-business complex services, virtual management office configured to handle, coordinate, invoke e-business services on behalf of vendors/business partners.
- II. Claims 4-11, drawn to a method and a computer program product for registering a plurality of virtual store operators, providing on-line shoppers window displays of products, accepting orders, notifying selected operators/vendors, fulfilling orders, collecting payments.

2. The inventions are distinct, each from the other, because: Inventions [II] and [I] are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process (see MPEP 806.05 (e)). In this case, the process disclosed in invention II will be practiced by another and materially different apparatus such as requiring e-complex to implement functions for registering virtual store operators, brokering transactions, notifying selected operators/vendors, fulfilling orders requiring shipping and handling labels and forwarding them to selected vendors, and collecting payments, which the apparatus of invention I does not include.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter and the search required for Invention II is not required for Invention I, restriction for examination purposes as indicated is proper.

A telephone call was made to attorney Mr. Steve Greensberg, registration # 44,725 on 6/8/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

**5. SPECIES**

***In the event applicant elects Invention II above, he is further obligated to elect among the following species as follows:***

This application contains claims directed to the following patentably distinct species of the claimed invention

Species of claim 4-6, 8-10,

Species of claim 4-5 and 7 and 8-9 and 11, because limitations in claims 6 and 7 (similarly in claims 10 and 11) are directed to different types of services. Claims 6 and 10

are directed to fulfilling and shipping orders for products whereas claims 7 and 11 are directed to tax and accounting services which do not require producing shipping and handling labels and forwarding them to the vendors.

6. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 4-5 and 8-9 are generic.

7. A telephone call was made to attorney Mr. Steve Greensberg, registration # 44,725 on 6/8/2005 to request an oral election to the above restriction requirement, but did not result in an election being made

8. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

9. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

10. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 3625

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yogesh C Garg whose telephone number is 703-306-0252. The examiner can normally be reached on M-F(8:30-4:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vincent A Millin can be reached on 703-308-1065. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
